

MULBERRY POINT YACHT HARBOR
Secondary Watercraft
Annual Understandings**

Situation:

The DNR has informed us their rule is one primary boat per slip. It is permissible to include a secondary watercraft as long as it fits within our 3' rule. A secondary watercraft will be of 14' or less in length or not longer than the width of the slip it will occupy.

The DNR's position is to let each marina on the river govern its own rules & policies.

MPYH Slip Owner - assumes one primary watercraft in slip.

Complete Section A on application.

1) A slip owner may have up to three (3) secondary watercrafts in their slip. All four boats (includes one primary watercraft) must abide by the 3' rule. Secondary watercrafts must be owned & registered to a slip owner.

OR

2) A slip owner may rent to multiple renters if each of the renters are a MPYH slip owner. However, only a maximum of (3) boats are allowed per slip (one primary and two secondary).

Slip Renter - assumes one primary watercraft in slip.

Complete Section B on application.

1. The renters may put up to two (2) secondary watercraft in the slip. All three boats (includes primary watercraft) must abide by the 3' rule. Secondary watercraft must be owned & registered to the renter of the slip.

****MPYH slip owner and renters understand and agree these privileges may be revoked or restricted by DNR. These "understandings" have been adopted by MPYH and are not necessarily approved by DNR.**

**MULBERRY POINT YACHT HARBOR, INC.
SECONDARY WATERCRAFT
INFORMATION**

See attached "Annual Understanding" guidelines for Slip Owners and Renters:

SECTION A - MPYH SLIP OWNER

Slip Number _____ **Owner's Name** _____

Secondary Watercraft (3 Allowed)
